

CFC Trailblazer

Solar-powered digital audio player with onboard memory

The CFC Trailblazer - one of Cattle for Christ's most innovative and intuitive solar digital audio players. Cost effective and smaller than an iPhone, the 2.4 ounce Trailblazer is lightweight and is one of the most powerful teaching and training tool available, second only to the CFC Trailblazer Dual. The intuitive raised-button keypad with four levels of navigation makes searching hundreds of hours of audio Bible content easy and accessible - even for the elderly or blind.

The CFC Trailblazer comes with onboard memory, which is tamperproof and cannot be changed or altered once placed in the field. We can load up to 1600 hours of tamperproof audio content including: audio full Bibles, New Testaments, Bible studies, music, sermons, discipleship training material, educational or humanitarian messages, and more. The optional CFC Trailblazer Solar Case Speaker is available for larger groups listening.

The CFC Trailblazer is the exact same quality and has all the features of the CFC Trailblazer Dual, but without the dual content and dual language capabilities.

- Built-in LED flashlight (torch) with three levels of brightness that can be activated while player is on or off
- 8 GB of internal memory, allowing for up to 1,600 hours of audio content
- microSD card reader, extending audio recording and playback time via memory cards
- Stereo headphone jack for superior Hi-Fi, CD quality sound
- Variable playback speed control. Listeners can now speed up or slow down audio playback
- Micro USB port, making charging connections more universal
- Raised keypad buttons, ensuring fingertip sensitivity for easy navigation of audio. Ideal for oral learners, blind, and visually impaired
